Exceptional Dullness in Grain Gives Bears Their Chance.

WHEAT WEAK AND DECLINES ONE-FOURTH

Corn and Oats Also Close a Shade Lower and Provisions, Though Strong Most of the Day.

Do the Same.

CHICAGO, March 25.—This came near being the dullest day on record on "Change." Bears made what capital they could out of the lack of foreign demand and the extreme dullness of trade resulted in a big decline in wheat. Corn and oats closed a shade lower. Provisions closed unchanged to size lower.

Liverpool and Berlin sent lower quotations for wheat at the opening and the weather here was favorable for the growing crop. Northwestern receipts were fairly liberal and there was no flutter in the political wild beast show in Europe. Under such a combination an easier tone in wheat at the opening was to be expected. May, which closed at 72¢20 per bushel, was 22¢ lower.
